- Laurel Marina has demonstrated good environmental stewardship
- Expansion will provide additional docks that will allow the public more access
  Expansion will increase fish habitat by measures proposed in the current application
- Availability of a sewage pump out station will decrease the amount of pollution
- Expansion is not within site of the 421 Bridge or public ramp

Issues Opposing the Proposal

- Negative impact on shoreline aesthetics
- Negative impact on reservoir water quality
- Negative impact on biological resources (i.e., terrestrial ecology)
- Negative impact on aquatic resources
- Negative impact on recreation, e.g., less area for hunting, hiking, picnicking, fishing, skiing, result in more noise and have negative impact on air quality
- Negative impact on traffic on US Highway 421/421 Bridge Public Boat Ramp
- Overcrowding with boaters and safety concerns
- Approval would result in more trash and litter in the reservoir

- Alternative sites, including private land, should be considered and used when the need arises
