Regulatory Branch

SUBJECT: File No. 200604097; Previously Approved Boat Launching Ramp and Proposed Community Docks at Haw Branch Embayment, Tennessee River Mile 209.6R, Pickwick Lake, Hardin County, Tennessee

The Preserve Marina Owners Association, Inc.
Attn: Mike Dooley
3660 Pyburns Drive
Savannah, Tennessee 38372

Gentlemen:

This is a follow-up to our telephone conversation last week. As noted in our conversation, we have become aware of upland activities associated with the boat launching ramp that we previously determined was approved under authority of Nationwide Permit No. 36. Since the upland boat storage and parking is integral to the approved ramp, we have determined that the ramp, ramp access road, areas related to ramp parking, and the area for the upland boat storage should all be included in our permit area which is currently being evaluated in association with the community slips. **In this regard, no additional work on the ramp, ramp access road, areas related to ramp parking, and the area for the upland boat storage shall continue until the Corps completes their review.**

If you have any questions, please contact me at the above address or telephone (615)369-7509.

Sincerely,

Amy M. Robinson
Project Manager
Operations Division
