

### **TVA Ash Recovery Project Website Scavenger Hunt**

1. If you go to the main TVA webpage and you want to find the link for the TVA Ash Recovery Site, under which heading would you find it?
2. What was the date of the dredge cell failure at the Kingston Fossil Plant and where on the website do you find this answer?
3. Name the location of one of the two research grade meteorological towers TVA has installed in the Kingston area? (HINT – The link that will help you answer this is located on the right side of the main page).
4. On what web page will you find the January 16, 2009, Frequently Asked Questions? Under what heading?
5. What is the full name of the act that is abbreviated as CERCLA?  
What is the title of the link you clicked to find that abbreviation spelled out?
6. As listed on the page labeled Standard Operating Procedures (SOPs) what are the three types of fish sampling being done at the site?
7. On the water quality page, what two agencies have posted Test Results
8. What was the date of the re-opening of the Emory River to the public?
9. What are the 3 categories of Administrative Record Documents?
10. What is the first document listed under the heading “Fact Sheets, Reports and Other Documents?”
