

KINGSTON ASH RECOVERY PROJECT

DIKE C WEEKLY REPORT

October 3-9, 2011

DIKE REINFORCEMENT

- As-built drawings for the buttress are being prepared.
- Crews cleaned and restored the peninsula and diffuser areas.
- The flow test scheduled for October 10 is postponed until later in the year due to the plant outage and the pumps being offline.
- Air relief valves still need to be installed on the diffusers.
