## Droid Free Map App Usage Instructions

The following is an explanation of the buttons on an iOS device:

Go back to the main map index page.

Tools such as measuring distance or area.

Bookmarks for each reservoir.

Search for a location (such as Dayton, TN).

Zoom to your current GPS location.

Use the phone's Information button to find more Information about the map; including the Legend, Map Contents (where you can change the background base map & turn the layers on/off), and Map Details, such as the map description, rating, owner and the Favorites icon.

From any of these screens, choose the phone's **back** button to return back to the map.
