ENVIRONMENTAL ASSESSMENT (EA) AND FINDING OF NO SIGNIFICANT IMPACT (FONSI) – FINANCIAL ASSISTANCE TO PIERCE METALS, BRISTOL, SULLIVAN COUNTY, TENNESSEE

In accordance with the National Environmental Policy Act (NEPA) and TVA's implementing procedures, Environmental Stewardship and Policy has prepared the attached EA and determined that the potential environmental consequences of TVA's action have been addressed. We conclude that the proposed action of providing financial assistance to Pierce Metals in Bristol, Sullivan County, Tennessee to fund half the cost of building a 7,500 square foot production area addition and buying two permanent cranes is not a major federal action significantly affecting the environment. Thus, an environmental impact statement is not required.

Paper copies of the EA and this FONSI will be retained in TVA's NEPA documents file. An electronic version of this documentation will be stored in the Electronic Document Management System.
