Land and Water Stewardship

- Blue Ridge and Nottely reservoirs, as well as a portion of Chatuge Reservoir, are located among the scenic mountains of Georgia and have a combined surface area of more than 11,000 acres and about 250 miles of shoreline.

- Georgia residents enjoy camping, fishing, boating, swimming and other recreational opportunities provided by these reservoirs, as well as economic benefits resulting from recreation and tourism. Both Blue Ridge and Nottely have a day-use recreation area. TVA also maintains four stream access sites.
- TVA manages recreational, natural and cultural resources on more than 1,700 acres of public land around these reservoirs and partners with state, local and regional stakeholders to improve water quality, shoreline conditions, recreation and biodiversity in these reservoirs and their tributaries

River Management

- TVA maintains the structural, seismic and hydraulic integrity of two multipurpose dams in Georgia: Blue Ridge and Nottely.
- TVA operates the dams and reservoirs in Georgia as part of an integrated multi-purpose reservoir system to provide numerous stakeholders a variety of benefits which can include: navigation, flood risk reductions, low-cost hydropower, water supply, water quality and recreational opportunities.
- Eight municipalities and two industries in Georgia draw water from the Tennessee River system. Water also is drawn for irrigation.
