Green Power Providers Program

January 10, 2019
2019 Program Overview

**GREEN POWER PROVIDERS**

**Capacity Pool**
- Unfilled 2018 capacity (7.5MW)

**Pricing Structure**
- Keep 2018 pricing

**Guidelines**
- Implement minor changes to better align the guidelines with the purpose of the program
2019 Program Details

RATES

➢ Residential and GSA-1
  • 500W-10kW – 20-year fixed rate of 9¢/kWh
  • 10kW-50kW – 20-year fixed rate of 7.5¢/kWh

➢ All Commercial Rate Classes Except GSA-1
  • 500W-50kW – 20-year fixed rate of 7.5¢/kWh

GUIDELINE CHANGES

• Implementing consistent system size requirements for all system sizes – Fast Track projects will have to meet the same maximum system size requirements as systems larger than 10kW
  • Projected system generation cannot exceed 100% of the Site’s historical annual usage in kWh, as recorded by the associated billing meter
Participant Groupings

Residential and GSA-1 customers grouped together

- Typically use fast-track option which eases burden and speeds installation
- Pricing is consistent with an all-energy rate class, while remaining competitive with residential and GSA-1 rates

All commercial rate classes except GSA-1 grouped together

- Larger systems may require more study
- Pricing is consistent with energy and demand rate class, while remaining competitive with GSA-2 and GSA-3 rates
GPP 2019 Important Dates

Program Opens

• 2019 GPP program will open on January 22\textsuperscript{nd}, 2019

Program Closes

• 2019 GPP program will close on December 31\textsuperscript{st}, 2019
